### **Production Notes**

-We shoot as a stand alone short as a proof of concept

-We pitch it as a script (we need to agree on what's attached and what's optionally attached)

-We apply for finance all through

-Once a product is at hand after post we apply for a full series network production

-Film Festivals and Funding

Not everyone will want the "Deferred Pay" or "Co-produce" system vs the "pay per hire"

Can give all the offers... Knowing that at least we could get revenue through YouTube or VOD like prime Video sale option.
